Hi [REDACTED],

I am working on SPM proposals at the Academic Affairs level. I want to check with you about the following new course proposals: SPM200 (a modification of RCSM 315), SPM385 (modification from RCSM 435), and SPM390. These three courses are based on modifications of shared courses with RMYL & RT.

I already approved these proposals together with other course proposals. But there is a question I still would like to confirm with you. I am wondering if students register for these SPM new course and those who register RCSM courses will take the same class taught by the same faculty member? If so, what do we do if a particular student registered for both SPM200 and RCSM315?

Thank you!
